Middle School
Field Trip

October 22- Pre
K- Grade 1
Assembly

October 29-
Halloween
Safety Assembly

October 31-
Halloween
Parade

A Safe Place for all Students

It has been a very upsetting two weeks listening to the news about the incidents of bullying and hazing in Sayreville schools. I am thankful for the community we have made here at St. Stan's, where this is not tolerated and the Gospel of Jesus is how we lead our daily lives. I have made sure that all students understand that if at any time there is ever a question to their safety, dignity and or well being, the adults in this community need to be made aware of that so that the issue can be addressed immediately. If you ever have any concerns please do not hesitate contacting me.

Mrs. Elena Malinconico, Principal

AdvancED

Many of parents, all of our faculty and students participated in the work that was required for our school to be accredited by AdvancEd. AdvancEd does accreditation primarily for systems. The accreditation is completed through viewing the work done at each school within the system. On Wednesday, October 8th the Diocese of Metuchen was recommended for accreditation by AdvancEd. The journey, to this point, allowed St. Stan's to reflect on our school, teachers and programs and come up with a strategic plan for the next three years that will ultimately benefit our school's programs, teachers and especially our students.

Assemblies

In an effort to provide students with a well rounded education and to be sure to include education that reaches beyond reading, writing and arithmetic, you will see several assemblies throughout the year. When planning assemblies we look to see what age level it would be appropriate for as well as what added value it brings to the education of our children. I hope you agree that the assemblies we are bringing to St. Stan's this year will add to the overall educational experience of your child.
